

# Curious Critters

## Critter Activities Ages 10-14

1 hour Activities, comes with a 2 critter meet  
& greet!

### 1. Clay Critter Creation Day!

Follow alongside an educational journey through adaptation and evolution using your very own air-dry clay blob to morph into a creature to take home!

### 2. Card Making Day (Self-Esteem Exercise)!

A self-esteem building exercise where each student has a paper taped to their back and classmates write nice things anonymously before making a craft card for someone they care about.

### 3. Pastel Day!

Each student gets their own sheet of pastel paper and smudger in order to follow along the guided lesson on how to properly layer colors and draw a beautiful flower field

### 4. Slime Making Day!

Learn all about metamorphosis in insects, crabs and frogs, then create and decorate your very own slime to take home.

### 5. Pet Day!

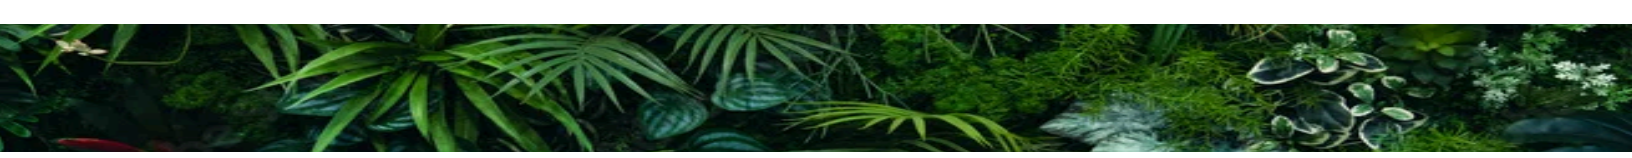

An interactive presentation on all types of pets, why to have a pet and why NOT to have a pet, followed by creating a mini clay pet.

### 6. Watercolor Painting Day!

Learn about wildlife preservation and the importance of maintaining our environment while following guided instruction to paint a roaring tiger.

### 7. Manga Character Creation Day!

Using our character design sheet we will design and create our very own anime/manga character using manga markers!

### **8. I love myself Day!**

Each student gets their own lifesize sheet of paper to ask a friend or teacher to trace them onto the sheet! then each student gets to decorate and write things they love about themselves using a huge array of craft and art supplies!

### **9. Hungry Hungry Snakes Game Day! (starting June 2026)**

An active game where we see what team of two will eat the most “mice” aka collect the most plastic balls using scooter boards!. Everyone gets a prize!

### **10. Painting Day!**

Each student creates their own painting masterpiece on canvas alongside their favourite critter.

### **11. Climate Change & Future Careers Day! (Presentation)**

A presentation on climate change, how to help, and future jobs that help animals and the environment.

### **12. Make your own Cleaning Solution Day! (starting June 2026)**

Make your own cleaning spray solution, learn about the science behind cleaning properties, pick between different scents and take it home in a mini spray bottle!

### **13. Design your own Canvas Bag Day!**

Design and decorate your own canvas bag! Create your own design using the activity sheet or use a stencil to decorate a canvas bag using special fabric paints and markers!
